Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 20 April 2007 has been entered.

Allowable Subject Matter

Claims 20-30 and 32-40 remain allowed.

The following is an examiner's statement of reasons for allowance:

The German reference cited in the 20 April 2007 Information Disclosure Statement shows a rotor mast 1 and a rotor head having blades 6 mounted thereto by way of a torque transmission element 2. The rotor head comprises a loop 4 encircling the rotor mast 1 in an unattached fashion. The torque transmission element 2 is however, rotatably joined via bearings 3 to the loop 4, and therefore not nonrotatably joined thereto as claimed. Modification of the joining configuration is clearly nonobvious since such a modification would change the operation of the rotor head.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
